WHAT IS IN THE PACK

Warranty, Maintenance and Care YOUR COPY TO KEEP

FELTON

Felton Industries Limited guarantees these products to be free from defects in materials and workmanship for a period of five (5) years from the date of purchase. This warranty is effective for 5 years from the date of purchase and covers supply of replacement parts only, not including installation. You must retain proof of purchase of the product (such as an invoice or receipt) and provide this to Felton on request. This warranty is for manufacturing defects only and does not cover any damage to product due to abuse, negligence or improper installation. This warranty is given on the understanding that the product is installed and operated according to Felton's installation guide and the Australian/New Zealand standard AS/NZS3500. This warranty is provided to persons who are a "consumer" under the Consumer Guarantees Act 1993 only and for use in domestic/residential dwellings only (not for commercial use).

At no stage should plated surfaces be cleaned with cleaning agents that contain a corrosive acid or a scouring additive. Plated surfaces should be cleaned with liquid detergent or soap and water. Any damage caused through the use of an unsuitable cleaner will not be covered by warranty. This warranty is subject to any other rights or remedies that you may have under the Consumer Guarantees Act 1993 (or any other applicable legislation) and to Felton's Terms of Trade.

Please fill in the details below, attach your receipt to this installation guide and keep as your proof of purchase.

HOW TO INSTALL

INSTALLING INTO STUD/NOG...(RECOMMENDED)

				
Remove the bracket cap and unscrew the plastic tightener.	Remove the adjustable bracket from the rail.	Mount the adjustable bracket into the top bracket position (either into a new pre-drilled hole or existing hole).	Fit soap dish onto the rail from the bottom.	Slide the rail into the top bracket.
1.	2.	3.	4.	5.
				
Hold the rail and position the bottom bracket into the desired position (max distance 655mm C-C).	Mount the bottom bracket into place. Ensure that both rail and bracket are secured. It is recommended that silicone sealant be used to seal the fixing brackets.	Screw the plastic tightener into place. Fit bracket caps.	Slip the plastic flange over the end of the elbow with the black 'o-ring'. Screw the elbow into the water outlet (wingback). Sealant required on thread to achieve a water tight seal. For Mains Pressure, fit flow restrictor into the handpiece first. Screw the hose onto the elbow and handpiece and attach the handpiece to the slider on the rail.	
6.	7.	8.	9.	

INSTALLING INTO CONCRETE/BRICK WALL...

Pre-drill holes to the desire position (Max 655 Centre - Centre) and fit the wall anchors then follow the above instruction.			
--	---	--	---

CONVERSION FROM EXISTING FELTONMIX WALLSET - Follow installation steps 1 - 8 above

		
<p>Remove the shower head from the existing Feltonmix wallset by gripping the shower head stem and turning it anti-clockwise.</p> <p>1.</p>	<p>Screw the elbow end with the black 'o-ring' into the wallset. The plastic flange provided will not be needed for this conversion.</p> <p>2.</p>	<p>For Mains Pressure, fit flow restrictor into the handpiece first. Screw the hose onto the elbow and handpiece and attach the handpiece to the slider on the rail.</p> <p>3.</p>
