### Warranty, Maintenance and Care YOUR COPY TO KEEP

FELTON

Felton Industries Limited guarantees these products to be free from defects in materials and workmanship for a period of five (5) years from the date of purchase. This warranty is effective for 5 years from the date of purchase and covers supply of replacement parts only, not including installation. You must retain proof of purchase of the product (such as an invoice or receipt) and provide this to Felton on request. This warranty is for manufacturing defects only and does not cover any damage to product due to abuse, negligence or improper installation. This warranty is given on the understanding that the product is installed and operated according to Felton's installation guide and the Australian/New Zealand standard AS/NZS3500. This warranty is provided to persons who are a "consumer" under the Consumer Guarantees Act 1993 only and for use in domestic/residential dwellings only (not for commercial use).

At no stage should plated surfaces be cleaned with cleaning agents that contain a corrosive acid or a scouring additive. Plated surfaces should be cleaned with liquid detergent or soap and water. Any damage caused through the use of an unsuitable cleaner will not be covered by warranty. This warranty is subject to any other rights or remedies that you may have under the Consumer Guarantees Act 1993 (or any other applicable legislation) and to Felton's Terms of Trade.

Please fill in the details below, attach your receipt to this installation guide and keep as your proof of purchase.

HOW TO INSTALL

INSTALLING INTO STUD/NOG...(RECOMMENDED)

		
<p>Untighten the grub screws from the top and bottom of the rail with an allen key and remove the brackets.</p> <p>1.</p>	<p>Screw the Top Inlet Mounting Bracket onto the water outlet (wingback &amp; barrel nipple). Sealant is required on thread to achieve a water tight seal. Mount the brackets into the desired position on the wall (adjustable MAX 820mm C-C), ensuring that they are in the correct orientation.</p> <p>2.</p>	<p>Adjust the bottom bracket on the rail, using an Allen Key to loosen and tighten the grub screw inside the back of the bracket.</p> <p>3.</p>
	 <p>(A) (B)</p>	
<p>Fit the flanges over both brackets of the rail. Then mount the rail onto the brackets in place. Ensure that both rail and bracket are secured.</p> <p>It is recommended that silicone sealant be used to seal the fixing brackets.</p> <p>4.</p>	<p>Tighten the grub screws on the rail with an allen key (A). Push the flanges firmly against the wall (B).</p> <p>5.</p>	<p>Fit the hose onto the bottom end of the rail and attach the handpiece to the slider on the rail.</p> <p>6.</p>

INSTALLING INTO CONCRETE/BRICK WALL...

<p>Pre-drill holes to the desired position (adjustable maximum 820mm c-c) and fit the wall anchors then follow the above instructions.</p>
