## WHAT IS FUSION PLUS®?

The Fusion Plus® is an All Pressure shower mixer supplied with venturi jets for better performance and user experience on unequal pressures. It's patented technology allows for *full front of wall access* for maintenance and future upgrades, all *without removing the faceplate*.

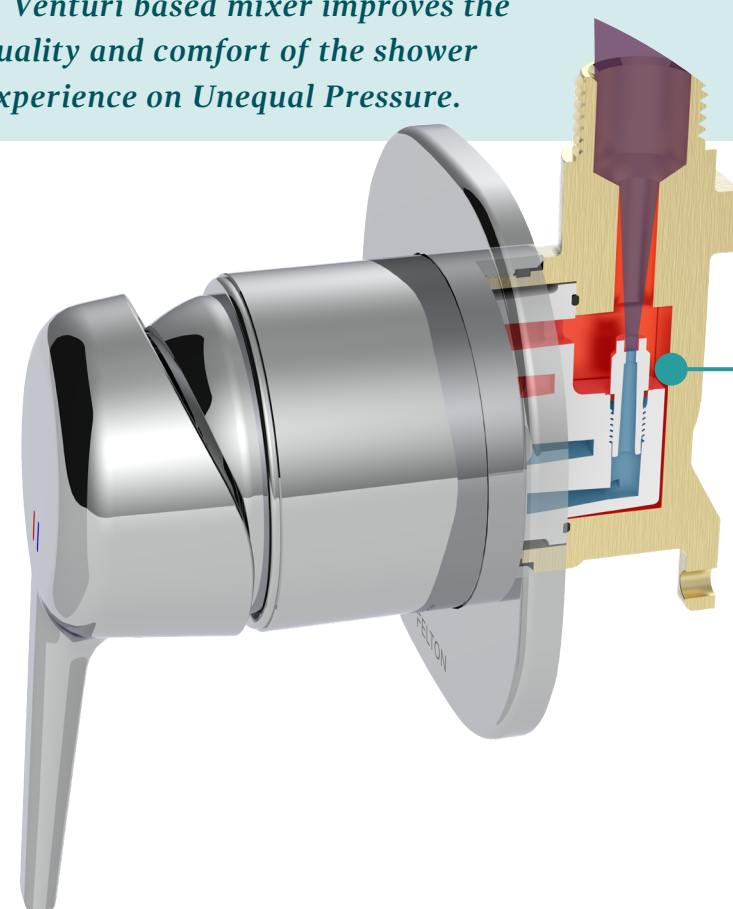

### Installation Flexibility

The Fusion Plus® mixer is ideal for retrofit situations as no minimum length of vertical straight pipework is needed from the outlet of the mixer.

- Line test up to 1500kPa
- Proprietary Felton F5 cartridge with anti-scald and flow limiter
- Designed, machined and assembled in NZ

ALL PRESSURE AP	10 YEARS WARRANTY	LIFE TIME EXTENSION	OPERATING PRESSURES	MIN 36kPa	MAX 1500kPa
--------------------	-------------------	---------------------	---------------------	-----------	-------------

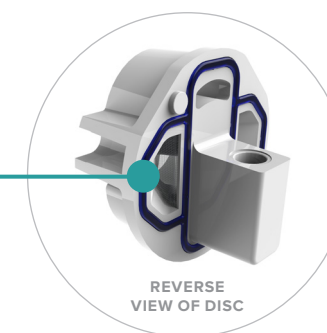

*A Venturi based mixer improves the quality and comfort of the shower experience on Unequal Pressure.*

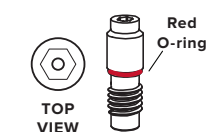

The Venturi works by using the high pressure cold water velocity to draw the low pressure hot water through at an increased rate, providing a balanced shower on unequal pressure.

### Easy To Clean Filter

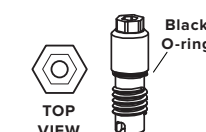

Cold line mesh filter is serviceable from the front of wall.

*Supplied with 2x Venturi Jets for installer to insert when installed in an Unequal Pressures situation:*

**ROUND TOP**  
**Venturi Jet (small hole)**  
Recommended for 36kPa hot water supply

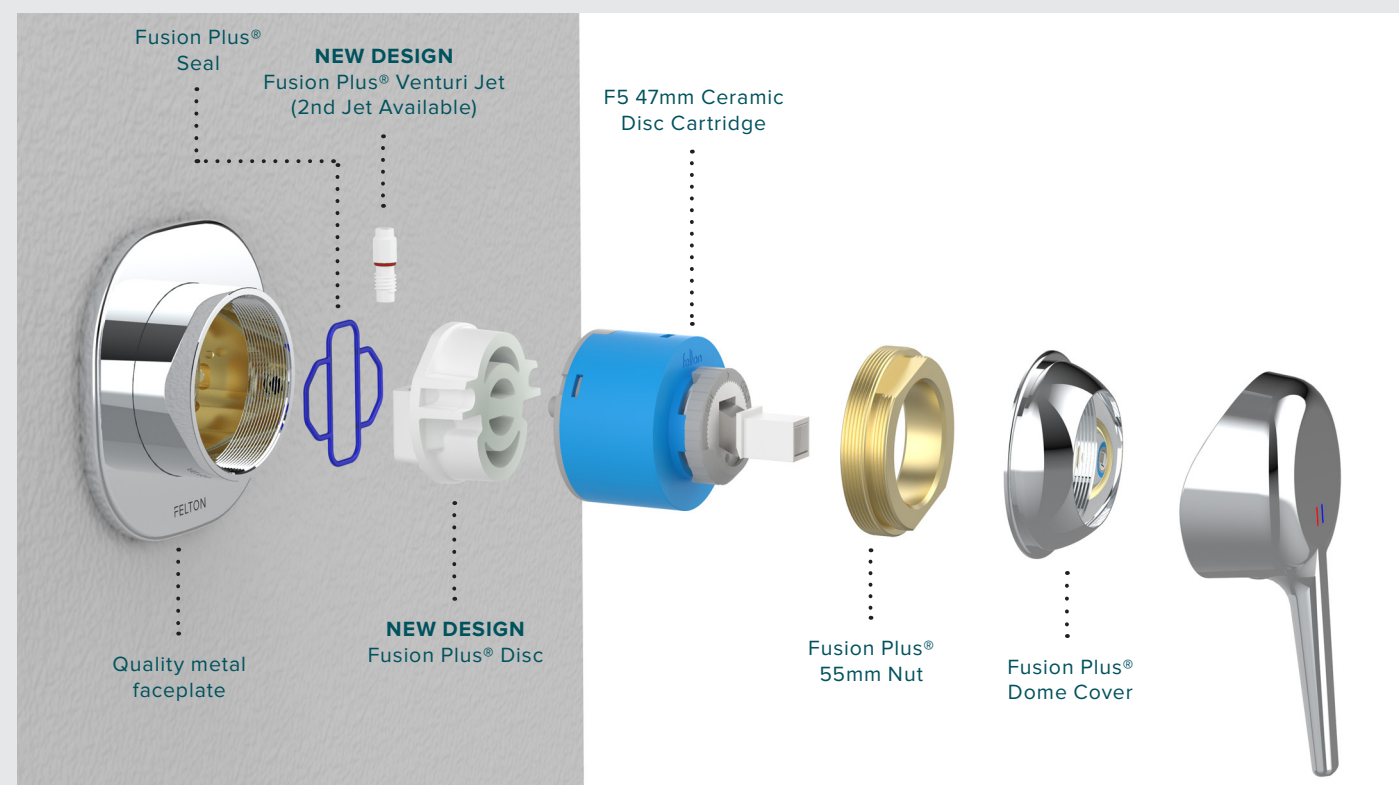

**HEX TOP**  
**Venturi Jet (large hole)**  
Recommended for 76kPa or greater hot water supply

NOTE: Factory supply the mixer for Mains Pressure WITHOUT Venturi Jets installed

## HOW CAN FUSION PLUS® SAVE TIME & MONEY?

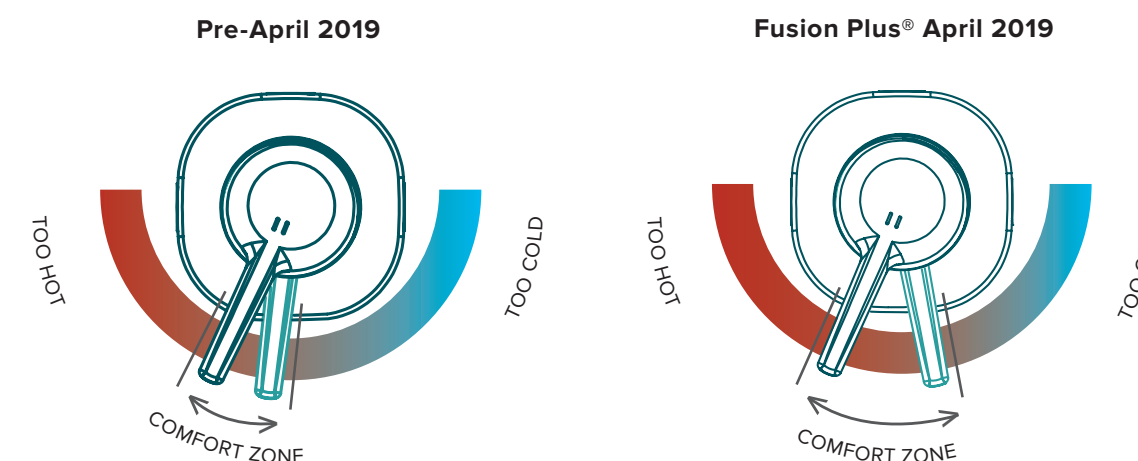

Full service access from front of the wall equates to valuable time and cost savings. The existing wall lining can stay in place during any future maintenance or upgrades.

## IMPROVEMENTS MADE TO FUSION PLUS®:

Design improvements made to the venturi jet and internal body structure of the Fusion Plus® mixer have resulted in greater control of the hot/cold water mix in the comfort zone (37° - 42°C).

### Improved Comfort Zone Comparison\*:

\*Improvement on Unequal Pressure Situations when compared to Felton Fusion™ & Fusion Plus™ shower mixers prior to April 2019

IS FUSION PLUS® RIGHT FOR ME?

	I HAVE: A NEW BUILD	I AM RENOVATING:	
		A MAINS PRESSURE SYSTEM HOME	A LOW/UNEQUAL PRESSURE SYSTEM HOME
Full front of wall maintenance: Parts can be serviced from the front of the wall without the need to remove the wall lining in your shower.	●	●	●
The filter can be accessed for cleaning/replacing from the front of the wall via the disc.	●	●	●
<p>Ideal for future mains pressure upgrade: If you are planning to upgrade your hot water cylinder from low to mains (high) pressure within the next few years*, but want to save time and cost by leaving the existing wall lining and mixer in place.</p> <p>Plumbers can access the mixer to remove the venturi jet from front of wall to suit the mains pressure system, saving time and cost to the home owner.</p>			●
Felton will always stock the required serviceable parts.	●	●	●
10 Year Warranty extendable to Lifetime	●	●	●
Designed, machined & assembled in New Zealand	●	●	●
