

FELTON

DESIGNER RANGE

MAY 2017

Trusted by New Zealand plumbers and homeowners

For more than 40 years, the Designer Range centres around the Feltonmix™ shower mixer. The first shower mixer to apply the Venturi principle to successfully mix hot and cold water supplied at different pressures, it continues to prove its reliability and performance time and time again.

Proudly Designed and Made in New Zealand

OUR STORY

Established by company founder Max Davies in Auckland in 1968 from humble beginnings on Felton Matthew Ave, Glen Innes. Just like in the good old days, all Felton products are proudly designed and finished in New Zealand - a breeding ground for innovation and design.

Felton is proud to have some of the best designers in the industry who are constantly striving for perfection and pushing water technology to the next level.

With a vested interest in the environment and increasing efficiencies, one of Felton's main areas of focus is water-saving products.

OUR STANDARDS

From design to dispatch, our procedures are audited by SAI Global (Telarc) and comply with ISO9001. Our ISO9001 certification confirms our commitment to quality management systems, as well as demonstrating our willingness to improve efficiency in order to deliver better products & services to our customers.

The Watermark certification is a mark of quality that confirms our products meet the relevant NZ / AUS plumbing and building industry standards.

INTRODUCING DESIGNER III RANGE

Since 1968, Kiwis have tried, tested and loved the Feltonmix™

We are proud to introduce our new Designer III wallset to give your existing Feltonmix™ a modern, refreshed look. Easily update the look and feel of your bathroom in minutes, without removing the wall lining.

Available in fresh new colour ways, the Designer III wallset features a wider faceplate for retrofit situations (without the need for an adaptor plate) and a uniquely designed showerhead with extra wide spray for maximum comfort and coverage. With nozzles made from limescale resistant rubber for anti-clogging and minimising build up, there is no need to worry about keeping it clean.

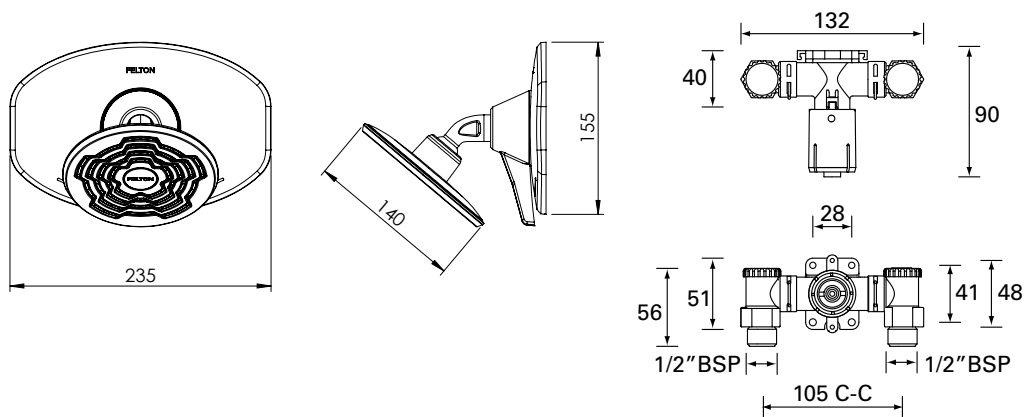

Proudly Designed and Made in New Zealand

DESIGNER III FELTONMIX™ SHOWER COMBO
UNEQUAL WHITE

Equal High (Mains)	★★★	8.0L

TURN YOUR WALLSET INTO A SLIDE SHOWER

If you have an existing Designer Wallset, you can convert it into a Designer Slide Shower by following these simple steps:

- Purchase a Designer slide shower/hand shower kit and install the rail or bracket as per instructions provided with pack.
- Undo shower head on existing wallset by gripping stem and turning anti-clockwise.
- Screw the elbow* end with the black 'O' ring into mixer.
- Screw the hose onto the elbow and handpiece, and attach handpiece.

Note: If a Felton plastic elbow is not supplied with your slide shower, it can be purchased separately (product code EC). Other elbows cannot be screwed into the wallset.

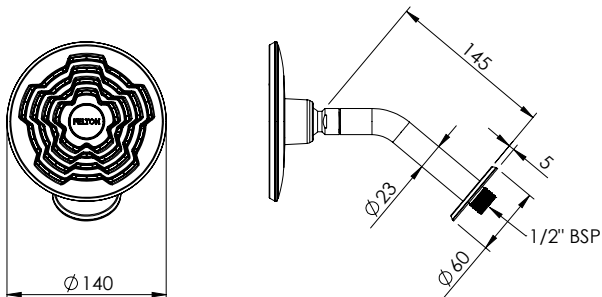

DESIGNER III SHOWER HEAD CHROME GREY DELUXE

D3SHCGD

- Suitable for All Pressures
- Oxijet watersaving device included
- Optimised to be used with Oxijet™ watersaving products for mains pressure
- Shower aperture - 42mm²
- Quality brass arm. NB: Not to be fitted into Feltonmix Mixing Valve
- Limescale resistant rubber nozzles
- Extra wide spray for maximum comfort and coverage

WELS RATING		
Low/Unequal	★★★	9.0L
Equal High (Mains)	★★★	7.0L

FELTONMIX™ TECHNOLOGY

FELTONMIX™

All pressures, integrated outlet mixer with one point installation for time and cost savings

- Unequal, equal low or equal high (mains) water pressure
- Shallow/standard wall depth
- Low-mid range bathroom budget
- You want to save time and cost with a single point installation (without a separate outlet to an elbow)
- You need the option to convert your bath to a shower without removing the wall lining
- You want the option of changing from a fixed rose to a hand shower or vice versa without having to change the pipe work
- You need a child tamper-proof shower with the temperature control at adult head height

SUITABLE FOR
